related activities of the college. IQAC has organised several seminars, workshops, conferences and webinars during the pandemic on various domains of higher education at national and state levels. The think-tank of the College is striving hard to elevate the institution to greater heights.

INTRODUCTION TO WEBINAR

Intellectual Property Rights (IPRs) are legal rights that provide creators a protection for original works, inventions, or the appearance of products, artistic works, scientific developments, and so on. IPRs play a key role in every sector and have become the basis for crucial investment decisions. IPRs are exclusive rights and therefore there is always a challenge to strike a balance between the interests of innovators and the interests of the society at large. Another important factor is to have an adequate legal framework to protect the interests of innovators and inspire confidence in an intellectual property being protected with the objective of triggering further innovation.

The primary objective of IPR is to promote awareness and encourage the innovation across various disciplines by encouraging inventions and innovations and thereby by promoting their protection and utilization so as to contribute to the development of Industries. This in turn contributes to the promotion of technological innovation and also to the transfer and dissemination of technology. Successful ventures are based on innovative products and services. Innovation is the oil needed for accelerating the engine of the economy. Innovators work hard to come up with their innovations and hence these innovations are protected under the various Intellectual Property Laws. This five days' National Webinar focused on the relevance of intellectual property rights to business, filing and legal aspects of patents, trademarks and geographical indications, copyrights in digital world, and funding aspects of entrepreneurship and future business revolution, between 11-07-2021 and 15-07-2021.

OBJECTIVES OF THE PROGRAMME :

- (1) To discuss on the Relevance of Intellectual Property Rights to Business.
- (2) To create awareness to the faculty and students regarding Filing and Legal Aspects of Patents, Trademarks and Geographical Indications
- (3) To get the knowledge about Copyrights in Digital world, Patents and Trade Marks.
- (4) To get the knowledge about Funding Aspects of Entrepreneurship.
- (5) To motivate the faculties and students to actively participate in the webinar to know about Future Business Revolution.

SUMMARY OF THE WEBINAR

Intellectual Property Rights (IPRs) are legal rights that provide creators a protection for original works, inventions, or the appearance of products, artistic works, scientific developments, and so on. IPRs play a key role in every sector and have become the basis for crucial investment decisions. IPRs are exclusive rights and therefore there is always a challenge to strike a balance between the interests of innovators and the interests of the society at large. Another important factor is to have an adequate legal framework to protect the interests of innovators and inspire confidence in an intellectual property being protected with the objective of triggering further innovation.

Day 1 began with formal inaugural, welcome address was delivered by Dr.Vijaya Bhaskar, Principal ABBS. Dr,DevarajaNayaka, Associate professor and Co-ordinator of the webinar gave a brief idea about five days program. Mr.Ajitesh Basani, Executive Director of ABBS delivered the keynote address. Dr.D.M.Mahishi, Dean & IQAC Director, who explained the growing importance of IPR in the current market scenario and how business ideas are to be protected irrespective of its scale.

The day 1, the topic was “Relevance of Intellectual Property Rights to Business”. The resource person was Dr.Gagan.K, a independent legal consultant from Mysore. The session on Intellectual Property Rights and its relevance to business was very informative, interactive. & made the participants realise that IPRs are much older than most of us really think.

The session for Day 2 of Five-Day National Webinar was on topic “Filing and legal aspects of Patents, Trademarks and Geographical Indications”. The guest for the day, Dr. Viswesh Shekhar emphasized the importance of filing for IP protection which will enable individuals and organizations to protect themselves and avail of the rights available under IP law. The session concluded with an exchange between the participants and Dr. Viswesh during which comprehensively clarified the doubts raised by the audience.

The day 3 of five days national webinar was on the topic “Copyrights in digital world”. The resource person was Dr.Avishek Chakraborty,Assistant Professor, School of Law, Christ(Deemed to University), Bangalore. The session on Copyrights in digital world was very informative, interactive and highly thought provoking to the participants. The speaker clearly explained what are copyrights, for what and all the copyrights can be applicable and what is the duration of validity of copyrights for each category, the difference between the digital copyright and non digital copyrights. The speaker highlighted the importance of IPR and the relevant topics also the technical aspects on copyrights with involving software, hardware and networking for Digital support.

The session for Day 4, of Five-Day National Webinar on IPR on topic “Funding aspects of Entrepreneurship” by Dr.K.Dhanalakshmi from Ramaia Institute of Management Studies,

spoken about different aspects of funding to the budding entrepreneurs, raising funding opportunities like Angel investors, venture capital, various schemes by government for start-ups and also explained different business models. For the Entrepreneurship.

The session for Day 5, of Five-Day National Webinar on IPR on topic “Future business revolution” by Dr.Sriram Anandan, educator author and successful entrepreneur, enlightened with new scenarios, technologies, and applications related to the concept of the Internet of Business (IoB) and discuss challenges and risks on future of business revolution and also covered about crypto currency, future automobile industry revolution through the diamond battery and black chain countries role in the present context. The speaker had a question-and-answer session at the last and several questions were taken. This webinar was just like the galaxy of intellectuals.

Around 401 registrations came from participants who had joined the programme like students, research scholars, faculties, academicians, industrialist, and entrepreneurs across the country like Haryana, Andra Pradesh, Tamil Nadu, Kerala, Maharashtra, Bihar, and West Bengal, etc. and also the nationals from five different countries i.e Ethiopia, Oman, Malaysia. All the participants were spent precious time with the webinar has helped all the participants to enrich the knowledge on IPR & Future business revolution.
